Academic Participation and Activities

Director, Department of Global Health Governance at the School of Medicine, Shanghai Jiao Tong University.

Chair, the Medical Parasitology Branch of the Chinese Preventive Medicine Association.

Chair, Tropical Disease Special Committee of China Endemic Disease Association, Associate editor for several journals including "Chinese Journal of Parasitology and Parasitic Diseases," "Journal of Parasitic Diseases and Tropical Medicine," "Journal of Parasitic Diseases and Infectious Diseases," "Henan Journal of Preventive Medicine," "Tropical Medicine and Infectious Disease," "Chinese Journal on Schistosomiasis Control" and "Chinese Journal Of Pathogen Biology."

Research Interest

Epidemiology of Parasitic Diseases, Spatial Epidemiology, Molecular Epidemiology, Vector biology, and Research on the Prevention and Control of Vector-borne Tropical Diseases.

Mainly work on spatial epidemiological and health statistical research. Conducted in-depth molecular phylogeographical, landscape genetic and spatial epidemiological research on Schistosomiasis and its intermediate host Oncomelania hupensis, Leishmaniasis and its vector Phlebotomine sandflies, and Malaria and its vector Anopheles maculatus complex.
